

D-Link®

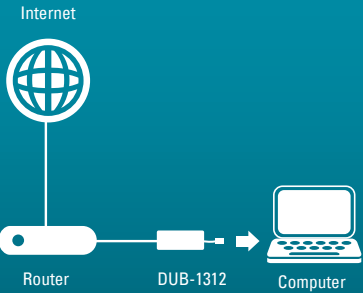

USB 3.0 Gigabit Ethernet Adapter
DUB-1312

What this product does

The USB 3.0 Gigabit Ethernet Adapter adds Gigabit Ethernet connectivity to a SuperSpeed USB 3.0 port on your computer, whilst fully backwards compatible with previous USB standards. The DUB-1312 is powered via USB port it is connected to and does not require additional power adapter to function. Its light weight and portable size makes the adapter convenient to carry with you , wherever you go.

Energy saving functions

The DUB-1312 can save energy when data is not being transmitted, reducing the battery consumption of laptops and notebooks. It complies with USB 3.0 standard and is fully backwards compatible with USB 2.0/1.1 devices. Setup is quick and easy, simply run the installation wizard and the drivers will be automatically installed.
