

- Compact, modern m-ATX tower
- Optimal cooling compatibility
- Support 240mm radiator
- 1x 120mm PWM fan pre-installed

The **CHIEFTEC BX-10B-OP** is a modern, compact mini tower that combines elegant and subtle design with high functionality and easy-installation for a capable system. Featuring standard ATX PSU compatibility, m-ATX boards and graphics cards up to a maximum length of 380mm, as well as a total of 6 possible installed fans, modern configurations should have no trouble being installed into the BX-10B-OP from a space or cooling perspective.
