AZZA Hurricane II Digital RGB Fan Installation For Motherboard

WARNING!

The addressable RGB fans can connect directly to the 5V addressable headers of compatible motherboards, such as those from MSI™, ASUS™, Gigabyte™ and ASROCK™.

Please note: Only 5V addressable header from compatible motherboards are supported; please do not connect the fan to a 12V non-addressable header.

Please check your motherboard's specifications before use. Do not go past the motherboard's allowed limits on power ratings and LED count when connecting multiple fans / LED strips.
