

PORTABLE WITH A TOUCH OF INSPIRATION

Scale new heights of productivity, flexibility, and style with a touch-enabled mobile monitor. The 14-inch Full-HD slim and light ThinkVision M14t has a 4.6 mm thin monitor head and weighs just 698 grams¹ offering you an extra display whenever you need it. With 10-point touch functionality, enjoy the freedom to design, animate, present, and annotate on an intuitive monitor interface. More than just a display, the M14t comes with a pressure-sensitive active pen for precise sketching and easy navigation. It also has a customized sleeve for protection, and an L-shaped dongle for vertical deployment and better cable management. This compact USB-C Hub Monitor with two USB-C ports works seamlessly with not only the Lenovo Think family laptops but also with other compatible USB-C devices, like your smartphone. The monitor offers ease of use, especially while working on the go. Connect, present, pitch, and create with conviction on the M14t—at the office or on the go.

Portable Display with Picture-perfect Clarity

Intuitive Touch Interface

Exclusive Accessory Combo for Ease of Use

SEE MORE EVERYWHERE YOU GO

Built for mobile professionals, the M14t's 14-inch Full-HD IPS panel display with super-narrow bezels ensures crisp and accurate visuals with impressive viewing angles, making it ideal for presentations. This sleek ultra-portable monitor with tilt function (-5° / 90°) and a height-adjustable stand (up to 11 mm) allows users to work in a flexible and comfortable viewing position in any work environment. Get a clear view of the display, whether you are outdoors or in an office, with 300 nits brightness capability. Moreover, the TÜV Rheinland Low Blue Light technology lets you work with minimal eyestrain.

DELIVER AS ONLY YOU CAN

Drag, draw, annotate, and collaborate, no matter where you are. The ThinkVision M14t is 10-point touch-enabled for an intuitive interactive experience even on the go, allowing you to create with a personal touch. It comes along with an active digital pen that supports 4096 levels of pressure, so you can draw and sketch with unmatched precision. Switch your view in no time with auto-rotation sensors that don't require software or driver installation. Additionally, an intuitive on-screen-display (OSD) menu enables easy access to brightness, contrast, and rotation settings.

CONNECT BETTER, WORK EASIER

Built with an innovative dual USB-C design, the M14t can duplicate or extend your screen—be it your smartphone or laptop²—so you're always productive. With data, power, and media capabilities of USB-C, you can create a presentation, transfer data to a hard drive, and enjoy the unique power pass-through function. With dual USB-C port, the power pass-through function supplies power to the M14t and the compatible USB-C device connected to the monitor simultaneously via one AC/DC adapter.³ Enjoy the option of a vertical display setup and better cable management for a clean, easy desktop setup with the L-shaped dongle.

Ports

2 x USB-C (power, data, and video signal transfer)

Power Pass-through

Yes, USB-C to USB-C

Clutter-free Desktop Setup

L-shaped dongle

²Extending screen can only work when the M14t connects with a compatible USB-C laptop or when the smartphone's OS supports.

³When the M14t is connected with an AC/DC adapter, being charged.
