## ICY BOX **IB-525-U3**

External enclosure for a 5.25" SATA drive

### For standard DVD or Blu-ray™ drives

You still have a drive available from your old desktop PC? Or a standard DVD or Blu-ray™ drive? That's great, because you can now simply use them externally by inserting the drive into the IB-525-U3. The ICY BOX enclosure is suitable for all 5.25" SATA drives.

### Flexible use

Not only standard DVD or Blu-ray™ drives can now be used externally with the IB-525-U3, but the functional case can also be used to accommodate mobile racks in 5.25" format. This means that one or the other piece of hardware can be brought back to life.

### High-quality aluminium

The enclosure is made of high-quality aluminium and is therefore robust and particularly durable. The simple, black design integrates well into the IT periphery of most workplaces.
