

48V DC Power Adapter

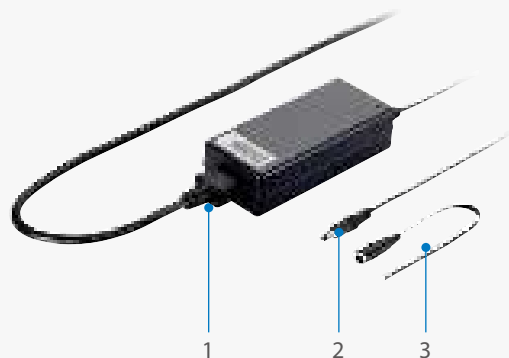

POW-4801

H/W Version: 1

LevelOne POW-4801 is a combination accessory of 48V AC Power Adapter plus one DC Power Jack Converter, which provides an ideal solution for DC power demand devices but with only AC power source available.

The DC Jack Converter is easy for installation; connect one end to the AC Power Adapter, and DC Terminal Block on powered device with other end.

POW-4801 provides 64.8w output power and offers Overvoltage, Overcurrenter, and Short Circuit Protection that keeps powered devices from electrical demand.

1. AC Power Input
2. DC Power Jack
3. Power Jack Converter

Technical Specification

Input Voltage:

110V-240VAC, 50/60Hz

Output Voltage:

48VDC/1.35A

Temperature:

Operation Range 0~40°C

Storage Range -40~85°C

MTBF:

25Khours

Protection Spec:

Overvoltage/Overcurrenter/Short Circuit Protection

Electromagnetic Interference(EMI/RFI):

FCC PART 15 B Conducted/Radiated Emissions

CISPR 22 Conducted/Radiated Emissions

EN55022 Conducted/Radiated Emissions
